

Classic Jiri to Everest Base Camp Trekking

<https://www.nectravels.com/package/jiri-to-everest-base-camp-trekking/>

Jiri to Everest Base Camp is one of the most popular classic treks in the Everest region. The spectacular scenery of the landscape and the Himalayan ranges are the significance of this trek. The lower part of this trek is called Solu region while the upper section is regarded as Khumbu region.

The Khumbu region has been bounded in the Sagarmatha National Park, the world heritage site. Sagarmatha is the Nepalese name of Mt. Everest. Sherpas, the famous climbers are the dwellers of Khumbu region. The flora and fauna are other jewels of the Sagarmatha National Park and the story of the Yeti is still a mystery to the rest of the world.
