

Ultra Light Flight in Nepal

<https://www.nectravel.com/package/ultra-light-flight-in-nepal/>

Ultra light aircraft take off from Pokhara and offer spectacular and dramatic views of the lakes, mountains and villages. This is an ideal way to see life from a new perspective. The choice of the Pokhara Valley for ultra-light aircraft is appropriate chiefly because of the proximity of the mountains and the scenic lakes.

If you are adventurous, wrap up well and squeeze onto a fully open view Ultralight aircraft flight at pokhara. It's an unforgettable experience to weave through clouds above verdant hills, snowy peaks, winding rivers and shiny Fewa lake.

Flights will be operated from the Pokhara airport beginning September through June. The flights take place from sunrise to 11 a.m. & from 3 p.m. to sunset every day during these months.
