

# Zip Flyer in Nepal

<https://www.nectravels.com/package/zip-flyer-in-nepal/>

Dangle 600 meters in thin air while roaring forward at 140 km per hour 1.8 km long! The world's tallest and longest zipline in Nepal!

Nepal now offers the rush of extreme zip lining, the first of its kind in the whole of Asia. Zip flying in Nepal is not just another zipline; it is the world's longest, steepest and fastest zip-line to give you the ultimate adventure experience.

The launch pad is situated at the peak of Sarangkot, Pokhara offering the most spectacular views of the Annapurna mountain range and the Pokhara Valley below.

Zip flying has been in operation since June 2, 2012. Safety is the leading criteria, and the system by Zip-flyer TM LLC, USA is designed with the most advanced technologies and has delivered a state-of-the-art zipline. So get ready to experience the ultimate adrenaline rush!
